PROFESSIONAL SUMMARY

Frontend Web Developer with strong skills in HTML5, CSS3, JavaScript (ES6+), React.js, and responsive web development. Experienced in building modern, user-friendly, and interactive web applications with real-world functionality including API integration, filtering systems, local storage, dynamic UI rendering, and responsive layouts. Developed and deployed multiple frontend projects including booking systems, e-commerce-style platforms, weather applications, quiz systems, and productivity tools. Passionate about creating production-quality user experiences and continuously improving frontend development skills.

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- React.js
- Responsive Web Design
- Tailwind CSS
- DOM Manipulation
- Component-Based Architecture

React & JavaScript

- React Hooks (useState, useEffect)
- State Management
- Event Handling
- Array Methods
- Conditional Rendering
- Local Storage Management
- Dynamic UI Rendering

APIs & Tools

- REST API Integration
- Fetch API
- Git & GitHub
- Chrome DevTools
- Figma
- Claude
- VS Code
- Codex

Databases & Backend Basics

- SQL
- MySQL
- MongoDB (Basics)

Deployment Platforms

- GitHub Pages
- Vercel (Basics)

FEATURED PROJECTS

❖ Direct Farm to Customer Platform

- React.js | JavaScript | Responsive Design

Live: <https://komalaher1410-github.github.io/Direct-Farm-to-Customer/>

GitHub: <https://github.com/komalaher1410-github/Direct-Farm-to-Customer>

- Built a React-based farm-to-customer platform with responsive UI.
 - Developed reusable components and dynamic product rendering.
 - Implemented filtering and modern e-commerce style layouts.
-

❖ Local Service Provider Booking App

- React.js | REST APIs | Responsive UI
 - Developed a service booking platform with dynamic frontend interfaces.
 - Built responsive booking workflows and scalable component structure.
 - Focused on real-world frontend architecture and user experience.
-

❖ Weather Application

- HTML5 | CSS3 | JavaScript | Weather API

Live: <https://komalaher1410-github.github.io/Weather-App/>

GitHub: <https://github.com/komalaher1410-github/Weather-App>

- Integrated real-time weather API using Fetch API.
 - Displayed weather conditions, humidity, and temperature dynamically.
 - Designed responsive UI for mobile and desktop devices.
-

Other Projects ->

- ❖ Ultimate Tic-Tac-Toe Game
 - ❖ Scientific Calculator
 - ❖ Quiz Application
 - ❖ To-Do Application
 - ❖ Advanced Image Gallery
-

PRACTICAL EXPERIENCE

- Built and deployed 8+ frontend web applications using HTML, CSS, JavaScript, and React.js.
 - Created responsive interfaces optimized for desktop and mobile devices.
 - Integrated REST APIs and asynchronous data fetching into real-world projects.
 - Worked with Git and GitHub for version control and project management.
 - Focused on clean UI design, accessibility, responsive layouts, and frontend optimization.
-

EDUCATION

Bachelor of Computer Science (BCS) | 2022 – 2025

Savitribai Phule Pune University (SPPU), Nashik, Maharashtra

SGPA: 8.52 / 10

HSC (Science) | 2020 – 2022

SSC | Completed 2020

CERTIFICATIONS

- ✓ HTML / CSS / JavaScript Certification
- ✓ Web Development Certification
- ✓ Google Data Analytics Certification

ACHIEVEMENTS

- Developed and deployed multiple frontend applications on GitHub Pages.
 - Built responsive projects with modern UI/UX principles.
 - Implemented API integrations and dynamic frontend functionality.
 - Created scalable React.js component-based applications.
 - Consistently focused on improving frontend development and real-world project architecture.
-
